

## LEASE MANAGEMENT SOFTWARE & SERVICES CUSTOMIZED FOR THE HEALTH OF YOUR COMPANY

Whether you have a single unit or a portfolio of more than 1,000 leases, you understand the real cost of missed deadlines, unexercised options and poorly negotiated contracts. However, managing multiple leases requires specialized expertise and an entire team of people, which most companies simply do not have.

Using the most powerful lease management software platform in the industry, Property Works helps clients around the world:

- ▶ Track critical dates and deadlines
- ▶ Redeploy valuable resources
- ▶ Make data-driven decisions
- ▶ Boost the bottom line

All clients have access to the complete set of software modules, an unlimited number of user licenses, training and technical support, 24/7 access to reports and data, regular deadline alerts, 10GB of storage and a dedicated relationship manager.

Whether you choose to manage the software in-house using **Property Works On-Demand** or opt for our full-service capabilities with **Property Works Full-Service**, your level of service can change as your business needs change.
